

Reflective Teaching Statement Guide

Please write a 200–300 word reflection on your teaching experience.

You should include:

- The type of learners you taught
- The teaching context (online / private / group / individual)
- The challenges you faced
- How you adapted your teaching style
- What you learned from the experience

Example prompts:

What was your most challenging lesson and why?

How did you adapt materials for different learners?

What teaching strategies worked best for you?

How has your teaching practice developed over time?

Important:

Your response should be based on real teaching experience and written in your own words.
